## PROFILE

I am a young and passionate programmer who loves coding and isn't afraid of new challenges while staying focused on what I already master. I feel comfortable working in a team, adapting quickly to different environments, and continuously improving my skills to contribute effectively to any project

## WORK EXPERIENCE

- **Randstad Digital** 2023 - PRESENT  
Software Engineer
  - Develop low-level code for UDS/OTA in the automotive field and integrate it into embedded devices.
  - Develop Android app using cutting-edge technologies such as Jetpack Compose.
  - Work with other teams to provide an optimal product and organize work efficiently.
  - Test code using CI tools.
- **Bosch** 2022 - 2023  
Bosch Scholarship
  - Designed and developed a PCB, selecting appropriate components and ensuring optimal performance.
  - Assembled and tested the prototype, validating functionality and design.

## EDUCATION

- **Master Computer Science UTCN** 2023 - PRESENT
- **Faculty of Robotics UTCN** 2019 - 2023
